

**REMARKS**

[0001] Paragraph 36 of the specification has been amended to include support for computer readable media, as requested. The change is supported because a computer readable medium claim was included in the originally filed specification.

[0002] Claim 1 has been amended to make clear that a module could be hardware, software stored on computer readable media, or both. This concept is supported by paragraphs 34-36 of the specification.

[0003] Should additional information be required, the Examiner is respectfully asked to notify the Applicants of such need. If any impediments to the prompt allowance of the claims can be resolved by a telephone conversation, the Examiner is respectfully requested to contact the undersigned.

Respectfully submitted,

/Bruce R. Needham/
